

MUHAMMED INSHAD

Full Stack Developer

kochi, Kerala | +91 9526040501 | muhammedinshad30@gmail.com | GitHub | LinkedIn

Professional Summary

Full Stack Developer experienced in building scalable, user-centric applications across both frontend and backend. Proficient in UI development, state management, REST API integration, and authentication flows on the frontend, and in building server-side applications with Python, Django, and PostgreSQL on the backend. Strong problem solver, fast learner, and passionate about writing clean, maintainable, and reusable code.

Technical Skills

Languages	Python, JavaScript (ES6+), SQL, HTML5, CSS3
Frontend	React.js, Redux, Tailwind CSS
Backend	Django, Django REST Framework, REST API Design, JWT Authentication
Database	SQLite, PostgreSQL, Django ORM
Tools & Others	Git, GitHub, Postman

Projects

Student Learning Management System (SLMS) – Full Stack Web Application

github.com/muhammedinshad/Slms_django

- Built a full stack student management system using Python and Django, enabling admins to manage students, courses, and academic records through a clean web interface.
- Designed and implemented a relational database schema using PostgreSQL and Django ORM to efficiently store and query student and course data.
- Developed URL routing, views, and Django templates to create a dynamic, server-rendered frontend for the application.
- Implemented user authentication and role-based access control to secure admin and student-facing portals.

React E-Commerce Website – Frontend Web Application

github.com/muhammedinshad/React-E-commerce-website

- Built a responsive e-commerce web application using React.js + Vite, featuring product listings, category filtering, and a modern, clean UI design.
- Developed reusable component architecture in JavaScript (ES6+) with structured CSS styling for maintainable and scalable code.
- Implemented product detail views, cart interactions, and smooth client-side navigation for a seamless shopping experience.

Experience

Full Stack Developer Intern – Bridgeon Solutions

Aug 2025 – Present

- Developed and maintained web applications using React.js and Django
- Contributed to frontend UI development using modern web technologies, focusing on responsive and user-friendly interfaces.
- Integrated REST APIs and managed application state to ensure smooth data flow and dynamic content rendering.
- experience with Git version control, responsive UI design, and clean code practices in a real-world development environment.
